Góðan daginn,

I am writing you regarding potential rental of an area for producing one salmoncage for Háafell. I have spoken to Gauti at Háafell and Hilmar (Isafjørður Port), and they told me to contact you.

We are planning to produce one 160m cage, like the ones we did last year and the year before that in Ísafjørður. Is it possible to rent this area for 3 weeks? It will be sometime medio of July.

The cage has a diameter of 55 meters, so we will need approx 70 meters diameter. And also 170m in a straight line when we weld up the pipes.

Vinarliga / Best regards

.....
