Dear Heida Jack,

my name is Björn Dahlem and I am writing to you as professor of fine arts of Bauhaus University, Weimar, Germany. Together with the architects Elísabet Gunnarsdóttir, Kjartan Árnason and the Rögnvaldur Institute of Isafjörður, the university is planning a collaboration for a public art work on the premises of the former Ski lodge in Isafjörður. Please find attached my PDF letter to Þóra Marý Arnórsdóttir and the municipality, as well as a short concept describing the project titled *We are in Space*.

Could you please forward my PDF letter attached below to chairman Þóra Marý Arnórsdóttir? I would be very happy about her reply.

All my best

Björn
