Ég hitti þær Söru og Megan á Þingeyri um helgina og þær vilja gjarnan blása lífi í gamla kaupfélagið á Þingeyri líkt og kemur fram í erindi Söru hér að neðan.

Er nokkuð að vanbúnaði að við gerum slíkan samning að fenginni umfjöllun bæjarráðs?

Gísli H. Halldórsson

Subject: Foreign/Local Artist Gallery Proposal

Hello Mayor Gísli!

We hope you are doing well. We wanted to follow up with you after the Town Hall meeting the other day. We would like to move forward with the gallery space proposition, set up a meeting with you and proceed towards getting the space :) We have locals and foreigners who want to make this plan happen!

Proposal:

Building: Gamla Kaupfélagid

The idea is to create public art space where local and foreign artists can exhibit their work. The income generated by artwork sales would be split, with 50% going to the artist who produced the work and 50%

going toward a fund that helps maintain the space and provide supplies and advertising for future exhibitions/events. We think that the space could be run by volunteers on a board or a committee that represents all members of the community (local and foreign artists). There would be no employees because artists who are exhibiting their work at any time would take turns watching over the space while their work is on display.

We would love to start cleaning up the space if it's possible to use, everyone is excited about the prospect of putting some life back into that old building.

We look forward to hearing back from you!

The Thingeryi Gallery Team
