

Linköping Artist in residence

Linköping upcoming Artist in Residence program is a collaboration between the Culture House of the suburb of Skäggetorp in Linköping and the municipal public art hall of Linköping called Passagen. According to plans, it could be booted from 2019. The idea is that Linköping should receive visiting artists twice a year; a period of about 3 months and a shorter period of about 1 month.

The Culture House, which will be completed in autumn 2018, there will be residential and working opportunities for visiting artists. In close cooperation with the public art gallery Passagen, which is responsible for public exhibition activities as well as public design assignments, the visiting artist finally present their length of stay in Linköping in the form of an exhibition or a public art commission.

Responsible for the Artist in Residence on site will be the director of the Culture House, Mr Mårten Hafström and the head of Passagen public art gallery, Mr Lars-Ove Östensson.
