

JAZZ SUR LA PLAGES PRESENTATION

around Ísafjörður in one week

SPOT 1 _ THE ROUNDABOUT

This presentation to Ísafjörðurbær means to explain the aim of the one week installation of a banner for an event that takes place in Geneva, Switzerland in August.

Our event is taking place on a beach and as I am on the committee of this festival and, simultaneously in an artistic residency in Ísafjörður during February, on this marvellous bay, I thought it would be interesting to find some link between the two.

The banner would be located for two days in each of the three spots.

SPOT 2 _ THE PORT

It seemed interesting to me, to locate some spots that had some link to the community and were quite central, thus offering some visibility.

There also needed to be some guarantee to stabilise the two poles that will hold the banner, giving the very severe meteorological conditions.

The banner will be printed on a hole-mashed flag-like fabric by FANASMÍÐJAN in Ísafjörður.

SPOT 3 – THE CENTRAL SQUARE

This three photos offer a Photoshop illustration, where I think the banner can be safely installed and fixed without producing any nuisance. As pointed out, the banner would be in place for two days in each of the locations.

LET ME THANK YOU IN ADVANCE FOR TAKING MY DEMAND INTO CONSIDERATION AND I REMAIN AT YOUR DISPOSAL FOR ANY FURTHER QUESTIONS
