To: "Þórdís Sif Sigurðardóttir" <thordissif@isafjordur.is>

Hi again Thordis,

I just met my Icelandic colleague Thordur who is one of the responsible advisors for this project. He said that he knows of you and that you are very welcome to call him for any questions regarding the project. He is on parental leave until the end of June, but you can give him a call on +47 915 76 579.

Have a great weekend,

Best regards,

Natasja Qvist Flavet

Dear Natasja,

Thank you for interesting request for participation. The project description sounds promising.

Before I consult with our Mayor, could you inform me of what expences our municipality would take care of regarding the project.

Best regards,

Þórdís Sif Sigurðardóttir, sviðstjóri stjórnsýslu- og fjármálasviðs / Bæjarritari

Subject: Call for project participants: Innovative solutions for sustainable tourism in Nordic harbor towns

Dear Thordís Sif Sigurdadottir,

As a part of Nordic Innovations Tourism engagement, we are launching a project named *Innovative solutions for sustainable tourism in Nordic harbor towns*.

The project is granted between MNOK 3 to 4 and the project period is between 2019 and 2021, including a pre-project from May 2019 and October 2019. The aim of the pre-project is to engage eight different Nordic municipalities to participate in the project. These municipalities shall identify local issues related to the influx of Cruise tourism that will be addressed during the project in cooperation with other entities, such as the Cruise ship industry, private companies and universities. Nordic Innovation will invite to a first meeting for the participating municipalities 20.08.2019 in Oslo.

We foresee that the gathering of Nordic municipalities experiencing similar challenges regarding the influx of Cruise ships will create a dynamic platform for innovative solutions.

Please read the attached project description for a more detailed overview of the objectives and timeline for the project and pre-project.

As a representative for Isafjördur municipality, we would like to invite you and your colleagues to participate in the project. If this is not within your working field or mandate, we would appreciate if you would direct us to a better suited representative within your municipality.

Do not hesitate to contact us for any questions or more information regarding the project. Rasmus Malmborg, rm@nordicinnovation.org, tel: +47 951 21 480 and Thordur Reynisson, tr@nordicinnovation.org, tel: +47 915 76 579 (on parental leave until July 1st) are responsible advisors for the project.

We look forward to hear from you and to further discuss the project.

Best regards,

Natasja Qvist Flavet
