Hi,

Yes, it would only be once a week, for an hour. The time would be from 16:50- 17:50 if possible.

I have given as much notice as was possible. We had to sort everything out before being able to confirm it, sorry about that.

Kv,
Allyson

Hi, are you talking about once a week, and any special time of day?

I have made the first draft of the table and therefore need to make some changes and move it around so that this can possibly work. It would have been good to have received this before.

Kveðja,

Subject: Special needs basketball team

Hi Dagný,

as you may be aware we have been granted funds to run a special needs basketball team from this winter onwards.

Similarly to ÍVAR, this project is going to be very important to the community and will hopefully help people with special needs get active and start to play more sport.

Because the players will have special needs, we will need the full use of the gym for their practice sessions and will not be able to share the gym with anyone else.

This project is separate from the usual running of the basketball club, therefore their training session was not in the youth/mfl plan and separate training hours will have to be allocated for them.

We will need a full hour where we can use the full gym, preferably on Wednesdays afternoons.

I have included Þórir in this email as he is in charge of the operations of this new team.

kv,

Allyson
